

Welcome To Our Community

Welcome — you're now one of a growing number of people ditching the paper business card for something instant and modern. Your Black Hat Card is enclosed and ready to go. Before anything else, please take a minute to test it:

1. Tap it to a phone (yours or a friend's) and confirm it opens your contact page correctly
2. Try **Save to Contacts** and make sure it saves your info the way you expect
3. Double-check your name, phone, email, and anything else you asked to include

Want to see it in action first? Scan here for a quick animated walkthrough.

If everything looks right — wonderful, you're all set!

If anything needs a fix, no problem, tap [Contact](#) / [Support](#) / [Updates](#) at the bottom of your card, and we'll take care of it.

PAYMENT

✓ Paid

Thank you — you're all set, nothing else to do here

Your card includes **2 free updates** whenever you need a change. If you know you'll be updating often, ask about the annual Support subscription — **\$15/yr** for 5 updates per quarter (20/year) — extra updates beyond that are just \$5 each.

Thank you. I hope you enjoy using your Contact Card as much as we enjoyed making it for you.
